Reaching and Teaching

***Evangelism and Education
In Guyana, South America***

OUR MISSION

The Mission of Guyanese Outreach is to support the Gospel of Jesus Christ in Guyana, South America.

Our vision is to work with the Guyanese people to strengthen, value and enhance their own culture by assisting them to meet spiritual and physical needs.

Our focus is to assist pastors, provide education, develop job skills and training.

OUR HISTORY

Ruth Singh received God's vision of Guyanese Outreach (GO) over 25 years ago.

Ruth and two of her sons went to Guyana to make an assessment. They were overwhelmed by the poverty and realized that the physical needs had to be met first.

Beginning 1995, GO sent many sea containers of humanitarian aid, including medical supplies, EKG machines, clothing, and food. Eight years ago, the Board, after much prayer, realized that it was time to change our focus from providing aid to teaching job skills.

We have community-based programs that focus on computer training, functional literacy and math classes, and access to the Internet, all of which help to develop job skills and alleviate poverty. We also have sister-church relationships for evangelism.

CHURCH PARTNERSHIPS

Beginning with two Minneapolis area churches as a base we have expanded to partner with churches in Kentucky and look forward to working with many new partners to bring the Gospel to Guyana.

EDUCATION

Functional Literacy

Test scores have shown that students are benefitting from GO's after-school reading program.

Adult Reading

A new adult reading program has been started so that parents can learn along with their children.

Math

Math (including a computer math program) is taught alongside the functional literacy class.

EVANGELISM

Working with the local churches

Emmanuel Lutheran Church

Bringing the **Story of Jesus** to the children in the region and eventually the whole country.
